DETAILED ACTION

Response to Arguments

1. Applicant's Appeal Brief has been reviewed and is found persuasive. The previous examiner of record had mistakenly interpreted electrical schematic representation to include a physically claimed arrangement drawn to "a connection" to a shield (i.e. a dummy gate) in a MOS device, the connection "comprising a substantially vertical conductor formed in a region overlying an active area between gate and second source/drain region, the shielding structure being spaced laterally from the gate and being non-overlapping relative to the gate, and the shielding structure being electrically connected to a second source/drain region of the MOS device."

Allowable Subject Matter

2. Claims 1-8 and 10-18 are allowed.

3. The following is an examiner's statement of reasons for allowance:

The prior art does not disclose or suggest the claimed invention characterized by the physical interconnection of shielding structure relative to source/drain regions and gate of a MOS device.

Particularly, the prior art does not disclose limitations drawn to "a connection" to a shield (i.e. a dummy gate) in a MOS device, the connection "comprising a substantially vertical conductor formed in a region overlying an active area between gate and second source/drain region, the shielding structure being spaced laterally from the gate and being non-overlapping relative to the gate, and the shielding structure being electrically connected to a second source/drain region of the MOS device."

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Evan Pert whose telephone number is 571-272-1969. The examiner can normally be reached on M-F (7:30AM-3:30 PM).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Nathan Flynn can be reached on 571-272-1915. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
